

SAJAL SANTRA

Software Engineer

Kolkata, India | +91 6295005892 | mr.sajal2552@gmail.com | linkedin.com/sajalsantra | github.com/sajalsantra

PROFESSIONAL SUMMARY

Software Engineer with experience developing enterprise web applications using Java, Spring Boot, Oracle SQL, PL/SQL, Angular, React, and C#.NET at Tata Consultancy Services. Skilled in building RESTful APIs, debugging across the application stack, and working within Agile/Scrum teams. Proficient in AI-assisted development workflows including Claude Code, GitHub Copilot, ChatGPT, and Gemini to accelerate delivery and improve code quality. Strong foundation in data structures and algorithms, demonstrated through 759+ problems solved on LeetCode (top 8 percent rank, 76.3 percent acceptance rate).

CORE SKILLS

Languages: Java, SQL (Oracle, MySQL, SQL Server), PL/SQL, TypeScript, JavaScript, HTML5, CSS3, C#

Frameworks: Spring Boot, Spring MVC, Spring JPA, Spring Security, Hibernate, .NET Framework, Angular, React

Database: Oracle SQL, MySQL, SQL Server, PL/SQL, JDBC, Relational Database Design

Tools: Git, Maven, JWT, Oracle SQL Developer, MySQL Workbench, IntelliJ IDEA, Eclipse, VS Code, Linux, Shell Scripting

AI Tools: Claude Code, GitHub Copilot, GPT-4, Gemini — used regularly for code generation, debugging, and documentation

Concepts: Data Structures and Algorithms, OOP, RESTful APIs, Microservices, RBAC, Debugging, Code Reviews, Agile, Scrum, SDLC

PROFESSIONAL EXPERIENCE

Assistant System Engineer, Tata Consultancy Services (TCS)

Kolkata, India | Client: Pacific Life, EDEL Project | September 2024 - February 2026

- Built and integrated RESTful APIs in Java and Spring Boot, connecting Angular front-end services to Oracle-backed business logic; developed responsive UI components using Angular, TypeScript, HTML5, and CSS3 while contributing to an active Angular-to-React migration initiative.
- Wrote Oracle SQL queries and PL/SQL procedures for backend data processing within existing schema structures; secured API endpoints using Spring Security and JWT-based authentication, with Maven managing builds and dependencies.
- Debugged and resolved issues across the full stack — API, database, and front-end layers — tracing defects to root cause and validating fixes to maintain application stability.
- Utilised AI-assisted development tools including Claude Code, GitHub Copilot, and ChatGPT to accelerate code generation, streamline debugging, and improve technical documentation across the delivery pipeline.
- Conducted and received code reviews to uphold quality and shared best practices; contributed to Agile/Scrum ceremonies including sprint planning and release deployments, managing source code using Git.

Kolkata, India | Case Contact Management System | February 2026 - Present

- Developing a web-based Case Contact Management System using C#, .NET Framework, and SQL Server, including user authentication and role-based access control for different user types.
- Implementing CRUD operations, data management, and reporting functionality against a SQL Server database, working within an Agile/Scrum team.

PROJECTS

Bank Management System - Personal Project

Java, JDBC, SQL

- Designed a role-based Bank Management System distinguishing employee and customer permissions across core banking operations: account creation, balance inquiry, deposits, and withdrawals.
- Built the data layer with JDBC and SQL, writing CRUD queries and enforcing data integrity through validation rules and relational schema constraints.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Siliguri Institute of Technology, Siliguri, India | GPA: 8.81 / 10.00 | 2020 - 2024

- Relevant coursework: Data Structures and Algorithms, DBMS, SQL, PL/SQL, OOP, Operating Systems, Computer Networks, Software Engineering, Probability and Statistics, Linear Algebra.

CODING PROFILES

- LeetCode: 759 problems solved (Easy: 278, Medium: 422, Hard: 59), top 8 percent rank, 76.3 percent acceptance rate.
- HackerRank: 4 star Problem Solving, 5 star Java, 3 star SQL.
- CodeChef: 2 Star rating, 1551 rating (max 1574), Division 3.
